

Nihaal Mohammed Nazer M

.NET DEVELOPER

Perinthalmanna 679322 | +917907737628 | nihaal12343@gmail.com

Objective

Motivated and detail-oriented Junior Web Developer with practical experience in building scalable and user-focused web applications. Eager to contribute to a dynamic and collaborative development team, while continuously enhancing technical expertise and delivering high-quality software solutions.

Skills

Technical Skill:

Languages: C#, HTML5, CSS3, JavaScript

Web Technologies: ASP.NET Core, MVC, jQuery

Databases: MySQL, SQL Server

Front-End Frameworks: Angular, Bootstrap

Back-End Development: ASP.NET MVC, Entity Framework, LINQ

Version Control: Git, GitHub

Soft Skills:

Communication Skills, Problem-Solving, Team Collaboration, Time Management, Leadership

Work Experience

Present

Software Developer Trainee Full Stack (ASP.NET) Quest Innovative Solutions Kozhikode

- Currently doing an internship at Quest Innovative Solution, where I am learning and working on web development using .NET technologies like ASP.NET Core and Entity Framework. Gaining hands-on experience in building basic applications and understanding backend development and database integration.

Software Developer Trainee (Internship) Bridgeon Solutions 2024-Aug 2024

Jul

- Completed a one-month internship and bootcamp focused on the fundamentals of HTML, CSS, and JavaScript. Gained hands-on experience in coding, debugging, and implementing user-facing features while assisting in the development and maintenance of web applications. Collaborated with cross-functional teams to enhance functionality and user experience.

Projects

Library Management System

ASP.NET Core MVC | Entity Framework Core | SQL Server | Bootstrap

Designed and developed a dynamic, role-based Library Management System to streamline library operations and improve user accessibility. The system supports three primary roles:

- Admin: Has full control over managing genres, authors, books, publishers, loans, fines, and user accounts. Includes a visually informative dashboard to monitor key statistics and system activities.
- Members: Can browse available books, view detailed information about authors, and check real-time availability of books.
- Publishers: Have dedicated access to submit new books, manage their listings, and track the status of their publications.

The application was built using ASP.NET Core MVC with Entity Framework Core for database operations, ensuring efficient data handling and integrity. Implemented ASP.NET Identity for secure user authentication and role-based access control. The UI was styled with Bootstrap, offering a responsive and user-friendly experience across devices. Focused on clean code structure, maintainability, and practical features that simulate real-world library workflows.

Academic Project

CampUS

CampUS is a student-focused mobile application developed using **Flutter** and **Firebase**. It allows students to report ragging incidents, request mentorship, and submit infrastructure-related complaints directly to college authorities. The app aims to create a safer and more supportive campus environment through streamlined communication and quick response mechanisms.

EDUCATION

MES KALLADI COLLEGE MANNARKKAD

Graduation | BSc Computer Science
2024

Aug 2021-March

CGPA: First Class (60.1%)

GOVT MODEL HIGHER SECONDARY SCHOOL PMNA

Higher Secondary | Computer Science
2021

Jun 2019-March

CGPA: 88%

ALIYA ENGLISH MEDIUM HIGH SCHOOL

SSLC

March 2019

CGPA:96%

Other Interests

Travelling,Hiking,Camping

Languages Known

English, Malayalam
